"The journey may spiral and return, but integrity is the quiet choice to meet each step more honestly than the last."

Iter is the Latin word for journey. The spiral is an ancient, universal symbol representing the journey of life, personal growth, and transformation. Growth through learning. Evolution through repetition. Wisdom gained through return. Each return, each challenge revisited, shapes who we become.

Iter reflects the belief that authenticity should never be compromised — not in how we live, and not in how we make wine. The philosophy is simple but demanding: continue forward with integrity, even when the journey is challenging.

Iter wines are true to varietal and honest in expression. Rooted in California terroir and shaped by evolution, rather than convention, each wine follows its own path. If a wine carries depth, it is because the vineyard gave it depth. If it needs time, it is given time.

Iter is for those walking their own imperfect, evolving journey — choosing integrity again and again...
